

2018 LIST OF FREE FLU VACCINE CLINICS

Flu Vaccines are Valuable

Annual influenza vaccination provides powerful protection to you, your family, and the people you come in contact with during the “flu season.” Many people agree getting a flu shot is valuable, but getting around to it can be tough.

Trying to Make it Easy

Several organizations in the Upper Valley offer FREE flu vaccine clinics at a variety of times and places. The Public Health Council wants to make it easy for you and your family members to get a flu vaccine this year. All New Hampshire and Vermont residents are welcome at the drop-in clinics listed below.

What vaccines are being offered?

All of the clinics listed below are offering both the regular dose vaccine and the high-dose vaccine, which is recommended for people age 65 and older. All vaccines are preservative-free.
